

Mr. Dan Cameron dropping off the Wood Shop's handmade games and toys for our annual Unity Shoppe donation.

LA TIENDA-Has It Gone to The Dogs?

This week it is all about the dogs-we do love our pooches at Valle Verde as long as they're well behaved and friendly. We have a terrific dog park on campus and there are specific playdate hours for our pups according to size and activity level. It is also available for dogs and their people to visit, play and engage in training if pets have been evaluated and have a key. The humans love to gather on benches and catch up on all the 'news.' Last week I saw different residents walking a dog whose humans were unwell- this is typical of VV community support. Recently, the wood master, Dan Cameron designed and built an amazing "Dog Box" that holds toys, cleaning supplies etc. This is the kind of project La Tienda can support. In our shop we often have dog toys,

crates, clothing, toys, and many other goodies for our dogs. We thank everyone for their donations and creativity-we need each other for this to work for everyone's benefit.

La Tienda Project applications are due at the end of the month. Please apply for financial support for something to help us live our best lives at Valle Verde.

Florrie Burke, Manager
